#### WHAT IS SKIN NEEDLING?

Skin needling is a process carried out with a roller that is covered with numerous tiny needles. These needles penetrate the upper layers of the skin effectively stimulating collagen and causing the skin to rebuild itself.

#### ARE ALL THE ROLLERS THE SAME? NO!

Here in Australia the "Skin-inject™" is one of the devices listed by the TGA for the treatment of wrinkles (anti-ageing), scarring (anti-acne), skin regeneration improvement and Collagen-Induction-Therapy (CIT).

#### WHAT RESULTS CAN I EXPECT?

2. Reduction in the size of pores
3. Relaxes and fills scars
4. Improves brown and white marks
5. Skin texture is smoothed (read here you look younger)
